

Demonstration of Proposed Features

Date	15 March 2026
Team ID	XXXXXX
Project Name	Human Development Index Predictor
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status	Demonstrated	Remarks
1	HDI Prediction	Predicts HDI value using Machine Learning	Implemented	Yes	Working successfully
2	HDI Classification	Classifies countries into Very High, High, Medium, and Low categories	Implemented	Yes	Accurate classification
3	Data Preprocessing	Cleans and processes input data before prediction	Implemented	Yes	Integrated with model
4	Flask Web Interface	User-friendly interface for input and prediction	Implemented	Yes	Responsive design

S.No	Feature Name	Description	Status	Demonstrated	Remarks
5	Model Evaluation	Displays prediction performance metrics	Implemented	Yes	Tested successfully
6	GitHub Integration	Source code hosted on GitHub repository	Implemented	Yes	Repository available

Feature Implementation Summary

Item	Count
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%

Demonstration Summary

The HDI Predictor project successfully implemented and demonstrated all proposed features. The machine learning model predicts Human Development Index values based on development indicators and classifies countries into appropriate development categories. A Flask-based web application was developed to provide an interactive user experience. All planned functionalities were tested, demonstrated, and documented successfully.
